CORONER'S OFFICE.—THE FATAL ACCIDENT AT THE CORNER OF 1ST AVENTE AND 2D STREET.—The Coroser this morning held an inquest in the Grand Jury Room in the Halls of Justice on the body of Patrick Kevans, lying dead at the City Hospital, who came to his death from inju-ries received by falling from the scaffolding of the three story house, building in 2d street on the corner of the 1st Avenue. of the accident-whether it was occasioned by culpable nedigence or unavoidable accident. The testimony was some abit contradictory as to the fact of the scaffold being properly and strongly built, but the fact that the death of man was purely by accident, was conceded by all who testi-fied. The verdict of the Jurytin in the case was that Patrick Revans came to his death from injuries recived by falling by the accidental giving way of the scaffold, and that sufficient are was not taken in the erection of said scaffold.

15 It was stated in most of the morning papers that Dennis Conroy was the unfortunate man that was killed; it mans out to be Patrick Kevans. The mistake originated in consequence of the not being thoroughly understood, when the three men were taken to the Hospital. Kevans is about 25 or 26 gears of age and has only been married a short time. Death was caused by a fracture of the skull. The other two unfortunate men are still living.

The three laborers came before the Coroner and stated they were not discharged as reported in the neighborhood, because they would not ascend the scaffolding, but for other reasons-

A SAD CASE .- The Baltimore American says : "We have received a letter from Wrightsville, in York county, Pa., under date of 16th inst., which states that a Mr. Lynch (formerly of Havre de Grace, but more recently of Ohio,) reached Wrightsville some eight or ten days before, stating that he was sick and impoverished, and expressing a desire to get to his home at Havre de Grace. The letter says that he met with no sympathy, and that he started on foot on the tow path of the canal. He was unable, however, to proceed but a few rods from the village, and found shelter in the hut of a colored man, where he died during the following night. It is added that the black, after an ineffectual attempt to collect something from the villagers for the decent burial of the body, was obliged himself to act as coroner, jury and sexton, and carrying the body to the river side, made a grave for it at the foot of the towpath bank, where it now lies."

Died, at Canandaigua, on the 2d of July, Mrs. Mary Brocklebank, widow of the late Samuel Brocklebank, aged 72. The deceased was one of the first that emigrated to Ontario county. She removed with her husband from New London, N. H. in March, '91. Their locomotive was an ox team and sled, their canal and steamboat the wild Indian's bark canoe, and their point of destination the vicinity of Canandaigua, then an almost unbroken and gloomy forest.

INTERMITTENT FEVER, like every other disordered motion of the blood, is only an effort of nature to throw off something that is opposed to health; hence langour, weariness, pain the back and head, alternate fits of heat and cold, and other symptoms of fever and ague. Wright's Indian Vegetable Pills are a certain cure for all kinds of fever, because they expel from the body those bilious and corrupt humors which are the cause, not only of chills and fever, but of every malady incident to man.

the cause, not only of chills and fever, but of every malady incident to man.

Wright's Indian Vegetable Pills also aid and improve digestion and purify the blood; and therefore will not only make a perfect cure of the above vexatious complaint but will impart such health and vigor to the constitution as to enable it to resist any future attacks of chills and fever.

EF Beware of Counterfeits.—The public are cautioned against the many spurious medicines, which, in order to decrive, are made in outward appearance, closely to resemble the above wonderful Pills.

It should be remembered, all genuine medicine has Wright's Indian Vegetable Pills neatly printed on the sides of the boxes, and that, if the word Wright's cannot be found, all is positively wrong.

Lady; Nature has laid out all her art in beautifying your bewitching face. She has touched it with vermillion, planted in it a double row of ivory, and made it the seat of smiles and blushes. But time, sorrow and sickness steal the bloom and krightness from your cheek, and the ruby from your lip; the solar beams, also, bring the freekle to your complexion, and otherwise disfigure it. Art then kindly steps in and furnishes an antidote in some fragrant and innocent detergent. And where is the atticle, we confidently ask, that has obtained such deserved celebrity in restoring beauty as Gourand's Water of where is the article, we confidently ask, that has obtained such deserved celebrity in restoring beauty as Gourand's Water of Beauty, which so quickly brings the roses tack to your cheek clearing it from all eruptions, and realizing a delicate white neck, handamd arm? But be sure you get the Beauty Water; be not deluded by 'Oily Gammons, who recommend their pernicious trash in specious and coaxing language—trash containing mineral astringents, utterly ruinous to the complexion, and, by their repellent action, pointively injurious to health. it is evident that pipes made wholly of lead would be highly objectionable for that purpose, I very cheerfully join those sentlemen in recommending the adoption of the tinned pipes of Mr. Ewbank, as a most valuable substitute.

"The undersigned have examined several certificates shown them by Mr. Ewbank, in relation to the use of tin to coat the inside of the pipes to be used to conduct the water from the distributing pipes into the dwelling houses of the citizens; and we are of opinion, that as it can be done at a small additional expense, it would be desirable so coat the interior parts of the pipes. As the water of the Croton will come to the city remarkably pure, it would be much to be regretted if the least degree it should be rendered insalubrious by the material of which the service pipes are constructed.

Mr. Matrice's work is eminently fitted to engage the attention and meet the wants of all interested in the several movements that are now taking place in the religious community; it take up the pretensions generally of the several Protestant denominations and of the Romanists, so as to commend itself in the growing interest in the controversy between the latter and their opponents. The political portion of the work contains much that is attractive to a thoughtful man, of any religious persuasion, in reference to the existing and possible future state of our country."

Jayne's Vermifuge has gladdened the heart of many a mother, who had expected abon to follow her of ald to the grave, but found it restored to hife and roay health by this celebrated specific. It expels Worms without irritating the coats of the stomach and bowels, and combines the virtues of a tonic with those of an alterative. Neither the Vermifuge nor the Expectorant has a rival in the whole range of the material medica, for the diseases for which it is adapted.

WORMS ARE SWEPT AWAY from the stomach and bowels by Jayne's Tonic Vermifuge, as by the besom of destruction. They perish under its searching influence instantly, and are expelled with the mucus in which they are inhedded. The cure is in almost all cases permanent, and if a recurrence of the disorder should take place, a few doses of the preparation will never fail to produce the desired object—for the effect does not weaken with repetition. These who suffer from piles or remittent fever, or any complaint where a mild tonic or alterative may be desirable, will find in Jayne's Tonic Vermifuge, a most valuable remedy.

The following facts must be read with interest, particularly by Mi. Chelmford's numerous friends and acquaintances:

New-York, Nov. 18, 1812.

My Dear Sir—It has become so common lately to puff medicines by letters, that I would now refrain from any expressions of my feelings or opinion, did I not feel compelled to speak in justice to you, and out of a desire to serve my fellow men. You remember with what reluctance I was induced to try Scarpa's Oil for Deafness, for I felt convinced, after many ineffectual attempts, that a deafness of ten years' standing could not be cured by any medicine; but will you believe it when I tell you on my second bottle I can hear almost as well as any member of my family. The effect upon me has been magical—my former existence seems like a dream; and the pleasure of listening to and hearing conversation curried on in an ordinary tone of voice, after being so long subjected to the use of the ear trumpet, is almost transporting. I donot much like to have my name in print, but as the above statement may do some good, I have no objections to your using it.

Your obliged friend,

to be used with any kind of fuel, and with the ordinary kitchen atensis. The ovens are always ready for baking, and without hindiance to the other necessary cooking operations. They are a certain cure for smoky chimneys; and also allow all the effinivia from the cooking to escape up the chimney. One of the strongast evidences that these Ranges are superior to any others, is that there are no less than three persons infringing on the patent right of the proprietor, against whom the public are cantioned, as suits have been instituted against them for infringement. These Ranges are warranted to give entire satisfaction in every case.

J. C. BOOTH & CO. at the New-York Cash way, still continue to take the lead in economy and elegance in the manufacture and style of the various garments belonging to a gentlem in a wardrobe.

This superiority they are enabled to maintain in consequence of the general substation of the cash principle by the public, resulting from past experience, that the credit system necessarily imposed a heavy tax on the prompt paying customer to supply the losses from that class of the community which must necessarily be excluded from this establishment. By adherring strictly to the cash system, enables the subscribers to furnish their customers with garments of superior style and finish at a very great reduction from credit prices.

Gentlemen who contemplate refitting or altering the arrangements of their wardrobe would do well to give us a call, as our assortment is one of the most extensive in the city, as various as the changes of fashion, embracing all the different styles of French Elastic Cassimeres of the choicest patterns, (on which this establishment has become so celebrated. Strangers and others visiting the city are particularly invited to call and examine for themselves and test the above assertions by patronizing an exclusive cash house.

No deviation in prices and strict punctuality observed in filling orders.

Under the assurance that the system of "small profits and quick returns," which has elicited so liberal a patronage, will be continued, whilst our arrangements are such as will enable us to fill all orders in fature with promptness.

A feature in the establishment which must commend it to the toom took of an assortment of first quality ready made Garments, consisting of Surtouts, Frocks, Dress Coats, Pantaloons, Vests, Office Ceats, Traveling Frocks, Dressing Gowns, &c.

NEW LINE LIVERPOOL PACKETS.—

And Packet of the 16th August.—The splendid well known, see Lifast sailing, new favorite packet-ship LIVERPOOL, Captain John Eldridge, 1150 tons burthen, now on her second voyage, will sail positively as above, her regular day. It is well known and equally admitted by all that the Liverpool is well known and equally admitted by all that the Liverpool is the fastest packet ship that sails out of New-York, having beaten the packet ships New-York and Sheffield on her last passage hence asveral days, and also overy jacket on her return cosme that sailed in company with her, as well as those which sailed several days hefore her. Her accommodations for cebin, second cabin and shertage passengers, are so very superior that it has gained for her the name of the 'Floating Falace. Those desirous of securing berths in this magnificeat ship should not fail to make early application on hoard, foot of Buring slip, or to W. & J. T. TAPSCOTT.

The LIVERPOOL will sail from Liverpool on the 5th of October, affording to persons wishing to send for their friends a favorable opportunity of having them brought out in her or any of the regular line, on reasonable terms; and these wishing to remit money, can have drafts for any amount, payable on demand, in all the principal towns of Great Britzin and Ireland.
